Dear Captain Sherwood,

17-1-29

Vaccination Rules in the Civil and Military Station, Bangalore.

S.R. 43
Diary 2

Please refer to your office letter No.3769/177-89 dated the 26th November 1892 in which the Hon'ble the Resident approved of certain rules made by the Commission in regard to vaccination in the Station. Subsequently in August 1897 the Commission approved of a revised set of rules in this behalf and they were published for objections. The matter came up again before the Municipal Commission in October 1897 and was deferred pending the consideration of the Bye-laws under Section 32 regarding powers of the Health Committee. No papers are traceable in my office as what became of the matter subsequently. May I request you kindly to send me your office file on the subject for reference and return.

not available in Office

Yours sincerely,

C Rhamdas

No. 810/29
E2

CIVIL AND MILITARY STATION, BANGALORE.
MUNICIPAL OFFICE.

DATED 5th July 1929.

65-86
8/7/29

From

G. H. Cooke, Esq., M.C., I.C.S.,
President, Municipal Commission,
C. & M. Station, BANGALORE.

To

The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

SIR,

With a view to regulate the performance of Vaccinations in private houses and the grant of certificates of Vaccination, the Municipal Commission, at their special meeting held on the 29th April 1929, approved of the following draft rules - (vide extract of resolution No.2 - I dated the 29th April 1929 enclosed) :-

(1) All vaccinations shall be done free of charge at the Vaccination Stations of the Municipality.

(2) When any one requires vaccinations to be done at his or her residence a charge of annas 8 will be made for the first person vaccinated, and annas 4 for each additional person.

EXCEPTIONS.

(a) Gosha ladies and their infants shall be vaccinated free of charge.

(b) Vaccinations shall be done free of charge in schools, factories and workshops or wherever 10 people or more assemble for the purpose of vaccination.

(3) When vaccinations are to be carried out at the residence, application should be made to the Medical Assistants at the Sub-Offices and the fee under clause 2 shall be paid in advance.

P.T.O.

(4) Of the fees collected half shall be credited to the Municipal Funds and half to the person performing the vaccinations. A receipt on a prescribed form shall be given in respect of fees received.

(5) Certificates of vaccination. Certificates required with reference to the administration of the Vaccination Act shall be issued free if asked for at the time of vaccination. For the grant of certificates at other times the Health Officer is authorised to make a charge of Re.1/- per certificate, which fee may be retained by him.

2. The rules were published for objections and suggestions (vide copy of this office Notice No.1347/29 dated the 3rd May 1929 enclosed) and no objections or suggestions having been received, the matter was again placed before the Commission at their special meeting held on the 28th June 1929 when it was decided that the Commission's resolution of the 29th April 1929 be reaffirmed and be submitted to the Hon'ble the Resident for confirmation. I request that the Hon'ble the Resident may be pleased to confirm the Commission's resolution of the 29th April 1929 accordingly to come into force with effect from the 1st September 1929.

3. Performance of Vaccinations in private houses. The rules which purport to regulate the working of the Vaccination Act in the Station (Act No.III of 1880) are those framed by the Commission in 1892 and approved by the Resident in November 1892 (vide First Assistant to the Resident's letter No.3769/177-89 dated the 26th November 1889. These rules have

have fallen into disuse since the transfer of the Vaccination Department from the control of the Residency Surgeon to the Health Officer. But the practice continued of Vaccinators receiving a fee of 8 annas for each vaccination at a private residence. No papers are forthcoming to show how this practice came into existence and who authorised it. The object of the proposed rules is to lay down a definite procedure for the performance of vaccinations at private houses and to put an end to the irregularities committed by Vaccinators under the existing system.

4. Certificates of Vaccination. At present the Health Officer is not authorized to charge any fee for the grant of these certificates. The Madras Government Health Code authorizes Health Officers to charge a fee of Re.1/- for granting a certificate of vaccination, and to keep such amounts themselves. It is proposed to adopt the same procedure here subject to the conditions laid down in the rules approved by the Commission.

5. It is clear that the rules framed in 1892 require a thorough revision I shall take up the question in due course. In the meanwhile, these rules may be approved. They can be embodied in the revised set of rules which I propose to place before the Commission.

I have the honour to be,
Sir,
Your most obedient servant,

President, M. C.

MVL.
